# Transform your text into word clouds!

## What's a word cloud?

An attractive arrangement of randomly positioned words, where the most important words are bigger than the others.

## What are they for?

Mostly for fun! ...and now you can print them automatically onto items: a great idea for making custom gifts! Plus they are fantastic at summarising large documents (reports, speeches, questionnaires, etc), teaching kids and more...

[Discover other examples](#)

Great idea: make personalised gifts!

The screenshot shows the WordItOut interface. On the left, a text input field contains the text: "Alice in Wonderland by Lewis Carroll" and "Chapter 1. Down the Rabbit-Hole". A red arrow points from this text to a central logo that says "WordItOut". Another red arrow points from the logo to a word cloud on the right. The word cloud is a collection of words of various sizes and colors (red, green, yellow, blue) on a dark background. The most prominent words are "Alice" and "said". Other visible words include "well", "Rabbit", "herself", "all", "soon", "tone", "right", "felt", "Cat", "good", "moment", "poor", "looked", "head", "only", "one", "made", "like", "two", "door", "think", "took", "away", "while", "going", "dear", "come", "little", "thing", "heard", "found", "any", "way", "here", "long", "upon", "without", "see", "say", "more", "now", "make", "back", "day", "great", "never", "replied", "last", "rather", "put", "course", "over", "nothing", "Alice", "about", "Here", "looking", "added", "after", "round", "Queen", "some", "eyes", "know", "White", "tell", "Gryphon", "again", "voice", "large", "Hatter", "before", "Dormouse", "just", "things", "Merch", "began", "went", "Turtle", "Duchess", "Mock", "first", "three", "other", "came", "Caterpillar", "Mouse", "much", "said", "King", "same", "seemed", "thought".

## About word clouds

A word cloud is an image made of words that together resemble a cloudy shape.

The size of a word shows how important it is e.g. how often it appears in a text
